College of Social Sciences  
and Humanities

### Major(s):

Political Science &  
Human Services

### Minor(s):

Law and Public Policy

### Hometown:

Daytona Beach, FL

What animal do you relate to most and why?

Hippo - They love the water and eating! They can also be social animals but when they do not want to be bothered you should stay far away.

What would your ideal habitat be?

My ideal habitat would be a city park because you get to have nature and animals with all of the convenience of a near by city.
